Investigation Comments:

INTRODUCTION

On July 31, 2024, Mr. Bill Ross, Senior Emergency Response Coordinator (ERC) with the Texas Commission on Environmental Quality (TCEQ) Region 14 (R14) Corpus Christi Office, conducted an Emergency Response Onsite (EROS) on-site and complaint investigation. The investigation was conducted to determine if the

Page 2 of 3

alleged spill was managed in compliance with Title 30 Texas Administrative Code (TAC) section 327, the Spill Prevention and Control Rules. The alleged spill occurred at the Victoria Port Terminal (VPT) located at 1894 FM 1432, Victoria, located in Victoria County, Texas. The alleged responsible party (RP) was Shamrock Products LLC (Shamrock) (TCEQ Incident No. 427283).

BACKGROUND

On July 30, 2024, TCEQ R14 received a complaint alleging the possible occurrence of a second oil spill in the Victoria Barge Canal. TCEQ R14 staff attempted to call the complainant but were unable to make contact.

GENERAL FACILITY AND PROCESS INFORMATION

The Permit by Rule (PBR) Registration submitted to TCEQ Air Permit Division (APD) on April 12, 2023, Shamrock VPT was described as a chemical storage and loading facility used to store and transfer chemical commodities and petroleum products. Products were described as being received via truck, railcar, marine vessel or pipeline and shipped out via truck or pipeline.

Surrounding Land Use

Shamrock VPT is surrounded by industrial facilities to the northeast, the Victoria Barge Canal to the west and northwest, and the Port of Victoria offices and the USCG Marine Safety Detachment (MSD) Victoria to the southeast. A residential area is located approximately 1.6 miles to the northeast.

Summary of Site Investigation

On July 31, 2024, at 0821 hours the ERC attempted to contact the complainant but was unable to make contact. The ERC met with Mr. Ernie Paiz, District Chief with the Texas Division of Emergency Management (TDEM), Mr. Rick McBrayer, Victoria County Emergency Coordinator and Ms. Jena Banda, Victoria County Deputy Emergency Management Coordinator. The ERC along with local and state partners conducted a visual survey around the VPT and in the Victoria Barge Canal. No visible signs of a spill were evident. The Texas General Land Office (TGLO), the US Coast Guard and the Port of Victoria were contacted via telephone during the on-site investigation.

The ERC contacted Mr. Shane Stegall, president of Shamrock to discuss the alleged spill. Mr. Stegall indicated he was unaware of a spill. The ERC met with Mr. Steve Hernandez, Operations Manager with Shamrock, to tour the site. No evidence of a spill was observed.

ADDITIONAL INFORMATION

At approximately 1300 hours, the ERC made contact with the complainant. The complainant indicated he had not witnessed a spill but heard that another spill had occurred.

CONCLUSION

No recent spills were observed at the facility and a general compliance letter was issued.

No Violations Associated to this Investigation
